EK PERSONAL LETTER — PYAAR AUR BINA KISI PRESSURE KE

Anjali, Hum Aur Hamara Future

Hamare feelings, fears aur future ke baare mein ek honest aur gentle baat — tumhari choices aur family ke liye respect ke saath.

Yeh letter shaadi ke liye pressure, ultimatum, ya tumse papa aur mere beech choose karne ki demand nahi hai. Tum par koi particular answer dene ki zimmedari nahi hai. Main bas apni feelings share kar raha hoon taaki tum mujhe better samajh sako, aur main bhi tumhe samajh sakoon.

Jab tum ready feel karo tab padhna. Turant reply dene ki koi zaroorat nahi hai.

Anjali, ❤■

Sabse pehle, please yeh jaan lo ki main tumhari respect karta hoon — tumhari feelings, tumhare time, tumhari pace, aur tumhari life ke decisions ki. Main tumse shaadi ka promise nahi maang raha, na tumhe papa ke against jaane ko keh raha hoon, aur na hi tumse abhi koi final answer expect kar raha hoon. Main yeh sab isliye share kar raha hoon kyunki main chahta hoon tum mujhe better samjho, aur main bhi tumhe samajh sakoon. Agar letter ka koi hissa heavy lage, toh araam se break le lena. Tum disagree kar sakti ho, apni baat keh sakti ho, ya bol sakti ho ki tum abhi sure nahi ho.

1. Tum sirf woh ladki nahi ho jisse main pyaar karta hoon

Anjali, main tumse bachpan se pyaar karta aaya hoon, aur waqt ke saath meri feelings aur gehri hui hain. Mere liye yeh relationship koi casual cheez nahi hai jise main aasani se bhool jaun. Yeh jaan kar ki tum bhi mujhse pyaar karti ho, yeh bond mere liye aur precious ho jaata hai.

Jab main tumhare baare mein sochta hoon, toh sirf aaj ke baare mein nahi sochta. Main imagine karta hoon ki hum saath grow karein, ek-doosre ko support karein, apne goals achieve karein, difficulties face karein, aur shayad ek din life partners banein.

Mujhe pata hai life movie nahi hai, aur sirf pyaar se har problem solve nahi hoti. Shaadi ke liye responsibility, maturity, financial stability, family considerations aur difficult decisions bhi zaroori hain. Phir bhi jab main apna future imagine karta hoon, toh tum usmein mere saath hoti ho.

Mujhe sirf relationship khone ka darr nahi hai; mujhe us insaan ko khone ka darr hai jiske saath maine apne future ke itne saare sapne dekhe hain.

2. Separation ka thought mujhe itna hurt kyun karta hai

Agar hum ek-doosre se pyaar nahi karte, toh shayad yeh situation samajhna thoda aasaan hota. Lekin hum ek-doosre se pyaar karte hain, care karte hain, emotionally attached hain, aur jo humare beech hai usse khona nahi chahte.

Phir bhi possibility hai ki do saal baad humara relationship un circumstances ki wajah se khatam ho jaaye jo humare control mein nahi hain. Jab main yeh sochta hoon, toh darr lagta hai ki tumse waise baat kaise nahi kar paunga jaise aaj karta hoon, us silence ko kaise handle karunga, aur kaise accept karunga ki jo insaan aaj itna close hai, woh ek din meri life mein us jagah par nahi hoga.

Mujhe yeh soch kar bhi dard hota hai ki shayad tum kisi aur se shaadi kar lo aur apni life bana lo, jahan meri jagah na ho. Main nahi jaanta ki us waqt mujhe exactly kaisa feel hoga ya heal hone mein kitna time lagega. Main future ka claim nahi kar raha; bas apna darr honestly bata raha hoon.

Kabhi-kabhi aisa lagta hai jaise main us separation ka grief abhi se feel kar raha hoon jo abhi hua hi nahi. Tum abhi mere saath ho, hum ek-doosre se pyaar karte hain, humare paas waqt hai, phir bhi mera mind baar-baar us din ke baare mein sochta hai jab shayad main tumhe kho doon.

Main nahi chahta ki agle do saal main isi darr mein jeeta rahoon. Main present ko achhe se jeena chahta hoon aur saath hi calmly samajhna chahta hoon ki kya humara koi future ho sakta hai.

3. Main tumhare papa ke liye tumhare pyaar ki respect karta hoon

Mujhe pata hai tumhare papa tumhari life mein bahut important hain. Unhe hurt karne ka thought tumhare liye bahut painful ho sakta hai. Jab tum kehti ho ki tum mere liye sab kar sakti ho, lekin papa ko hurt nahi kar sakti, toh main samajhne ki koshish karta hoon ki tum kis conflict se guzar rahi ho.

Shayad tumhe darr hai ki unhe betrayal feel hoga, unka trust toot jayega, family mein conflict hoga, ya tumhe unhe takleef mein dekhna padega. Main tumhare fears ko dismiss nahi karna chahta. Main yeh expect nahi karta ki mere pyaar ki wajah se tum apne papa ki care karna band kar do.

Lekin main chahta hoon ki tum meri side bhi samjho. Tumhare papa tumhare liye important hain aur main uski respect karta hoon. Mere feelings, meri hopes aur tumhare saath imagine kiya hua future bhi mere liye important hai. Main bhi ek insaan hoon jo kisi se deeply pyaar karta hai aur use khone se darta hai.

Main nahi chahta ki tum apni family ko lekar guilt mein raho, aur main bhi har waqt yeh darr lekar nahi jeena chahta ki humare relationship ki expiry date hai. Kaash hum patience, maturity aur honesty ke saath is situation ko samajh paayein aur dekhein ki kya family ko hurt kiye bina future explore karne ka koi raasta hai.

Mujhe pata hai yeh easy nahi hoga. Family expectations complicated ho sakti hain. Lekin bina situation ko samjhe hum pehle se yeh assume na karein ki koi possibility hi nahi hai.

4. Pyaar karna aur shaadi ke liye ready hona alag baatein hain

Mujhe pata hai tum mujhse pyaar karti ho. Main har din tumse yeh proof nahi maangna chahta. Lekin kisi se pyaar karna aur uske saath life build karne ka decision lena do alag cheezein hain.

Main bas yeh samajhna chahta hoon ki kya tum kabhi mujhe apna life partner imagine karti ho — even agar us future tak pahunchne ke liye patience, difficult conversations aur circumstances mein changes ki zaroorat ho.

Jab tum kehti ho ki tum papa ke against nahi ja sakti, toh mujhe samajh nahi aata ki iska exact matlab kya hai. Kya tum abhi dari hui ho aur samajh nahi paa rahi ki kaise handle karogi? Kya tum mujhse shaadi karna chahti ho lekin hope karti ho ki family eventually accept kar legi? Kya tumhe lagta hai ki papa ki approval ke bina marriage decision lena possible nahi hai? Ya tumne already decide kar liya hai ki tum apni family ke decision ko hi follow karogi?

Yeh sab alag situations hain, aur main tumhare liye answer assume nahi karna chahta. Agar tum mere saath future chahti ho lekin dari hui ho, toh shayad hum dheere-dheere koi solution explore kar sakein. Agar tum unsure ho, toh humein honest conversations ki zaroorat hai. Aur agar tumne decide kar liya hai ki tum mujhse shaadi nahi kar sakti, toh woh sach samajhna mere liye painful hoga, lekin main assumptions mein jeene se behtar honesty choose karunga.

Main tumse kisi aisi cheez ki guarantee nahi maang raha jise hum poori tarah control nahi kar sakte. Main bas chahta hoon ki tum apni wishes, fears aur possibilities ke baare mein honestly baat karo.

5. Agle do saal automatically separation ka countdown nahi hain

Hum dono nahi jaante ki do saal baad exactly kya hoga. Shayad tumhari family tumhari wishes ko samajhne ke liye zyada open ho. Shayad humari circumstances improve ho jaayein, main career aur finances mein better position mein aa jaun, ya humein family se respectfully baat karne ka koi raasta mil jaaye. Aur yeh bhi possible hai ki cheezein humari hope ke hisaab se na hon.

Yeh saari possibilities hain. Main khud ko false hope nahi dena chahta ki sab kuch definitely theek hoga, lekin sirf darr ki wajah se abhi se give up bhi nahi karna chahta.

Agar hum har din yeh maan kar jeeyenge ki separation pakka hai, toh ho sakta hai hum apni present happiness bhi khatam kar dein. Main chahta hoon ki hum apne relationship ko enjoy karein aur saath hi future ko samajhne ke liye sensible steps lein.

6. Main apne aap ko stable future ke liye ready karna chahta hoon

Main abhi young hoon, aur meri education, career, skills, financial independence aur personal maturity bahut important hain. Sirf pyaar se marriage sustain nahi hoti. Future ke liye responsibility, mutual respect, communication aur difficulties handle karne ki ability chahiye.

Main apne aap par kaam karna chahta hoon, studies aur career par focus karna chahta hoon, useful skills develop karna, financially independent banna aur adult responsibilities ke liye ready hona chahta hoon. Agar hum genuinely kabhi shaadi karna chahte hain, toh main chahta hoon ki hum sirf 'I love you' kehne ke bajaye ek realistic plan ke saath future ki taraf badhein.

Main yeh sab sirf tumhari family ko prove karne ya tumse shaadi ke layak banne ke liye nahi karunga. Main yeh isliye bhi karunga kyunki meri apni life bhi important hai. Agar future mein humara raasta alag bhi ho, tab bhi mujhe apne pairon par khada hona aur meaningful life jeena aana chahiye.

Main chahta hoon ki hum dono apni education, ambitions, independence aur maturity par kaam karein, bina apni poori life ko kisi ek uncertain outcome ke liye rok kar.

7. Chalo realistic possibilities ko explore karte hain

Agar hum dono genuinely saath future chahte hain, toh mujhe lagta hai ki humein practical tareeke se situation ko samajhna chahiye.

- **Family ki expectations samajhna:** Kya shaadi ek particular age ke liye planned hai? Kya concern education, financial security, family background ya kisi aur cheez ko lekar hai? Kya papa kisi specific person se shaadi expect kar rahe hain, ya bas keh rahe hain ki do saal baad shaadi hogi?
- **Apni circumstances improve karna:** Main career aur financial independence par kaam kar sakta hoon, aur hum dono adult responsibilities ke liye better prepared ho sakte hain.
- **Agar tum chaho aur safe ho:** Ho sakta hai future mein koi trusted relative ya family member papa ko tumhari feelings samajhne mein help kar sake.
- **Jaldi ya pressure mein decision na lena:** Confrontation, threats, elopement ya panic mein decisions lene se bachna chahiye. Hum dono ki safety, freedom aur willingness important hain.

Hum guarantee nahi kar sakte ki papa agree karenge, aur unke reaction ko control nahi kar sakte. Lekin hum samajhne ki koshish kar sakte hain ki koi realistic raasta hai ya nahi. Agar nahi hai, toh humein us reality ko honestly face karna hoga; sirf pyaar se har problem solve ho jayegi, aisa pretend nahi karna chahiye.

8. Main nahi chahta ki hum darr mein promises karein

Jab do log ek-doosre ko khone se darte hain, toh woh keh dete hain ki kabhi nahi chhodenge, kabhi kisi aur se shaadi nahi karenge, ya ek-doosre ke liye kuch bhi karenge. Main samajhta hoon ki aise promises kyun hote hain — humein security chahiye hoti hai.

Lekin main nahi chahta ki humara poora future emotional moment mein kiye promises par depend kare. Main nahi chahta ki tum shaadi ka promise karo jab tum khud nahi jaanti ki future mein kya decision le paogi. Main nahi chahta ki tumhe papa aur mere beech choose karne ka pressure feel ho, ya apna pyaar prove karne ke liye apni safety risk karni pade.

Tumhari choice tumhari honi chahiye. Saath hi, mujhe bhi apni emotional limits ko honestly samajhna hai. Main chahta hoon ki humein pata ho ki hum kis future ko explore kar rahe hain aur kya hum dono us possibility par sochne ke liye ready hain.

Main patience rakh sakta hoon, apne aap par kaam kar sakta hoon aur tumhare fears ki respect kar sakta hoon. Lekin main hum dono ke liye saare decisions akela nahi le sakta, aur shared future tabhi possible hai

jab hum dono apni marzi se us possibility ko explore karna chahein. Main chahta hoon ki hum ek-doosre ko freely choose karein, guilt ya fear ki wajah se nahi.

9. Main nahi chahta ki do saal tak sab kuch undecided rahe

Mujhe nahi lagta ki humein aaj hi har problem solve karni hai. Hum young hain, apni lives build kar rahe hain aur ho sakta hai ki abhi saare answers na hon. Lekin main yeh bhi nahi chahta ki hum do saal tak future ke topic ko avoid karte rahein.

Hum agle kuch months apni lives, circumstances aur apni genuine wishes ko samajhne mein laga sakte hain. Lagbhag teen months baad calmly baat kar sakte hain ki kya clearer hua, kya seekha, aur kya realistic next step ho sakta hai. Phir chhe months ke aas-paas dobara review kar sakte hain.

Yeh relationship ko business project banane ke liye nahi hai. Yeh sirf isliye hai kyunki itni important baat ko honest attention milna chahiye. Main nahi chahta ki do saal baad humein lage ki humne saara waqt ek-doosre se pyaar karte hue guzaar diya, lekin future ke baare mein kabhi honestly baat hi nahi ki.

10. Yeh possibility bhi hai ki hum saath na ho paayein

Is baat ko discuss karna painful hai, lekin ignore karne se yeh possibility khatam nahi hoti. Ho sakta hai tumhari family humare relationship ko kabhi accept na kare. Ho sakta hai tum aakhir mein decide karo ki tum papa ke against nahi ja sakti. Ho sakta hai humari circumstances marriage ke liye enough stable na ho paayein. Ya ho sakta hai tum decide karo ki family ki expectations follow karna hi tumhara future hai, chahe uska matlab hum romantic relationship mein saath na reh paayein.

Main nahi chahta ki aisa ho, lekin main pretend bhi nahi kar sakta ki yeh impossible hai. Agar kabhi hum us point par pahunchte hain, toh mujhe bahut dard hoga. Main tumhe miss karunga, memories se struggle karunga aur shayad us future ko accept karne mein time lage jo maine imagine kiya tha.

Mujhe sadness, anger, confusion ya disappointment feel ho sakta hai. Lekin mujhe un feelings ke saath jeena seekhna hoga, apne aap ko ya apne future ko destroy kiye bina. Mujhe time, distance, support aur aisi life build karne ka mauka chahiye hoga jo sirf relationship ke around na ho.

Mujhe tumhari care karna ek raat mein band karne ki zaroorat nahi hogi, aur na hi pretend karna hoga ki humara relationship meaningless tha. Lekin mujhe padhai, kaam, friendships aur apni well-being ka khayal rakhna hoga.

Main yeh isliye nahi keh raha ki main tumhe chhodna chahta hoon. Main bas yeh keh raha hoon ki agar future humari hope se alag nikla, toh hum dono ko apni life destroy nahi karni chahiye aur na hi ek-doosre ko apni survival ka responsible banana chahiye.

11. Options samjhe bina main give up nahi karna chahta

Agar tum mujhse shaadi karna chahti ho lekin papa ko hurt karne se darti ho, toh main nahi chahta ki hum assume kar lein ki sirf do options hain — ya toh pyaar chhod do, ya family ko hurt karo.

Shayad situation ko gradually handle karne ka raasta ho. Shayad time, maturity, financial stability ya kisi trusted family member ka support help kare. Shayad papa tumhare darr se zyada open-minded hon. Shayad woh na hon, aur phir humein us reality ke baare mein carefully sochna pade.

Main nahi jaanta ki kaunsi possibility reality banegi. Lekin agar hum dono genuinely future saath chahte hain, toh main chahta hoon ki hum safe, realistic aur humari values ke according options explore karein.

Main success ki guarantee nahi de sakta. Lekin main chahta hoon ki hum honesty, patience aur maturity ke saath koshish karein.

12. Meri feelings aur mera pain bhi matter karta hai

Mujhe pata hai tum apne fears se guzar rahi ho. Tum mere pyaar aur papa ke liye apne pyaar ke beech torn feel kar sakti ho, family ko disappoint karne se dar sakti ho, ya guilt feel kar sakti ho kyunki tum jaanti ho ki main tumhare saath future chahta hoon. Main tumhara burden aur heavy nahi karna chahta.

Lekin jab main tumhe kehte sunta hoon ki tum papa ko hurt nahi kar sakti, toh kabhi-kabhi main sochta hoon ki phir meri feelings ka kya? Agar hum separate ho gaye toh jo pain mujhe hoga uska kya? Jo future maine imagine kiya hai, uska kya? Jo affection, trust, attachment aur memories humne banayi hain, unka kya?

Main tumse yeh nahi keh raha ki kyunki main hurt ho raha hoon, tum apne papa ko hurt karo. Main yeh bhi nahi keh raha ki meri feelings tumhari family se zyada important hain. Main bas chahta hoon ki tum samjho ki yeh situation hum dono ko affect karti hai.

Tumhara papa ko hurt karne ka fear real hai. Tumhe khone ka mera fear bhi real hai. Main nahi chahta ki hum apne pain ka comparison karein. Main chahta hoon ki hum ek-doosre ko samjhein aur dekhein ki kya koi aisa raasta hai jise hum dono genuinely choose kar sakein.

13. Mera darr tumhe control karne ki koshish nahi hai

Main tumse pyaar karta hoon, lekin tum meri property nahi ho. Main decide nahi kar sakta ki tum kisse shaadi karo, apni family ke saath kaisa relationship rakho, ya tumhe kya sacrifices karne chahiye.

Main nahi chahta ki tum mere saath sirf isliye raho kyunki tumhe darr hai ki tumhare jaane par main toot jaunga. Main nahi chahta ki tum guilt ki wajah se mujhe choose karo. Main chahta hoon ki tum mere saath isliye raho kyunki tum genuinely mere saath life build karna chahti ho.

Agar tum unsure ho, toh main chahta hoon ki tum apni uncertainty honestly batao. Ek difficult lekin truthful conversation, aise relationship se behtar hai jahan hum dono sach bolne se darte rahein.

Main tumhari growth aur happiness support karna chahta hoon, na ki tumhe do important logon ke beech trapped feel karwana. Lekin main aisa relationship bhi chahta hoon jahan meri hopes, needs aur future ko seriously liya jaaye.

14. Mujhe apni emotional well-being ka bhi khayal rakhna hai

Kabhi-kabhi tumhe khone ka fear itna strong ho jaata hai ki main separation ka pain uske hone se pehle hi feel karne lagta hoon. Main imagine karta hoon ki tum chali jaogi, kisi aur se shaadi karogi, aur humari woh conversations nahi hongi jo aaj hoti hain. Phir main us future ke liye sad ho jaata hoon jo abhi aaya hi nahi.

Main apne saath aisa baar-baar nahi karna chahta. Main present mein jeena seekhna chahta hoon, bina future ko ignore kiye.

- Main tumhe miss karne ke bawajood padhai aur apne goals par focus karna chahta hoon.
- Main friendships aur doosre meaningful relationships ko alive rakhna chahta hoon.
- Main har din tumhara online status check karne ya tumhari future marriage imagine karne mein nahi jeena chahta.
- Agar pain bahut heavy ho, toh main kisi trusted insaan se baat karna chahta hoon. Agar sleep, eating, studies ya daily life affect hone lage, toh support lena bhi theek hai.

Main nahi chahta ki meri poori emotional duniya is baat par depend kare ki humara relationship hamesha ke liye guaranteed hai ya nahi. Iska matlab yeh nahi ki main tumse kam pyaar karta hoon. Iska matlab hai ki main emotionally stronger banna chahta hoon, taaki tumse pyaar karte hue bhi constant fear mein na jeeyun.

15. Pyaar ke saath practical effort bhi zaroori hai

Mujhe pata hai successful marriage ke liye responsibility, financial stability, mutual respect, trust, communication aur difficult situations handle karne ki ability chahiye. Main expect nahi karta ki humara pyaar magic ki tarah har problem solve kar dega.

Lekin main yeh bhi nahi chahta ki future complicated hone ki wajah se hum apne relationship ko meaningless samajh lein. Humari feelings matter karti hain. Humari wishes matter karti hain. Humare individual choices matter karte hain. Families matter karti hain. Aur real circumstances bhi matter karti hain.

Agar hum saath rehna chahte hain, toh humein samajhna hoga ki uske liye kya zaroori hoga aur kya hum dono us possibility ko explore karna chahte hain. Agar hum saath nahi reh sakte, toh humein honestly accept karna hoga, ek-doosre ko indefinite uncertainty mein rakhne ke bajaye.

16. Main tumse kya samajhna chahta hoon

Main tumse aaj sab kuch solve karne ko nahi keh raha. Main tumse kal hi papa se ladne ko nahi keh raha, aur na hi yeh promise maang raha hoon ki humein koi alag nahi kar sakta. Agar tum comfortable ho aur jab tum ready feel karo, toh main tumhare honest thoughts sunna chahta hoon. Tumhe turant answer dene ki zaroorat nahi hai; 'mujhe nahi pata' kehna bhi okay hai.

- Kya tum kabhi genuinely mere saath shaadi aur life imagine karti ho?
- Agar haan, toh kya tum us future ke options explore karne ke liye ready ho, chahe time lage aur difficult conversations karni padein?
- Kya tum abhi family ke reaction se dari hui ho, ya tumne already decide kar liya hai ki tum papa ki wishes ke against kabhi nahi jaogi?
- Agar hum agle do saal apne aap ko stable banane par kaam karein, toh kya tumhe lagta hai ki family se humare relationship ke baare mein baat karne ki possibility ho sakti hai?
- Agar papa humare relationship ko accept na karein, toh tum apne liye kya chahti ho?

Main yeh questions tumhe force karne ke liye nahi pooch raha. Main us insaan ko samajhna chahta hoon jisse main pyaar karta hoon, aur tum future ko genuinely kaise dekhti ho, yeh samajhna chahta hoon.

Main tumhari real thoughts sunna chahta hoon, chahe woh complicated ya painful hi kyun na hon. Main nahi chahta ki tum sirf woh bolo jo mujhe khush kare. Main chahta hoon ki hum itne honest ho sakein ki samajh paayein hum kahan stand karte hain.

17. Jo bhi ho, humein maturity ke saath handle karna chahiye

Agar humein marriage ki taraf koi realistic path dikhta hai, toh main patience ke saath us possibility ko explore karna chahta hoon. Agar tum mere saath future chahti ho lekin apni feelings aur family circumstances samajhne ke liye time chahiye, toh main chahta hoon ki hum baat karein ki iska matlab kya hai aur hum kaise aage badh sakte hain, bina aise promises kiye jinki guarantee hum nahi de sakte.

Agar tum unsure ho, toh main chahta hoon ki hum us uncertainty ko accept karein. Agar aakhir mein tum decide karti ho ki tum mere saath future nahi bana sakti, toh mujhe us reality ko face karna hoga, chahe woh kitna bhi painful ho.

Main promise nahi kar sakta ki mujhe heartbreak nahi hoga. Lekin main apne pain ko tumhare against use nahi karna chahta, tumhe apni poori life ka responsible nahi banana chahta, aur na hi tumhe aise relationship mein rehne ke liye force karna chahta hoon jiska future tumhe possible nahi lagta.

Main chahta hoon ki hum apne decisions honestly lein, even jab honesty difficult ho.

18. Sabse important baat jo main chahta hoon tum samjho

Anjali, main tumse pyaar karta hoon. Main tumhare saath future chahta hoon. Tumhe khone ka darr mujhe hai, kyunki tum mere liye bahut important ho aur meri feelings tumhare liye bahut purani hain.

Main agle do saal is soch mein nahi jeena chahta ki humara relationship already end ho raha hai. Main hope rakhna chahta hoon ki shayad koi raasta ho, lekin blind hope par depend nahi karna chahta.

Main apne aap par kaam karna, career build karna, responsible banna aur future ke liye ready hona chahta hoon. Main tumhare papa ki respect karna aur tumhara family ke saath relationship samajhna chahta hoon. Agar hum dono genuinely shaadi chahte hain, toh main realistic possibilities explore karna chahta hoon.

Main chahta hoon ki hum fear mein promises karne ke bajaye honestly communicate karein. Main apni emotional well-being ka khayal rakhna bhi seekhna chahta hoon, taaki tumhe khone ka fear meri life ke har part ko control na kare.

Main tumse aaj yeh choose karne ko nahi keh raha ki tum papa se pyaar karo ya mujhse. Main bas chahta hoon ki tum seriously socho ki tum apni life ka future kaisa chahti ho, aur kya tum genuinely mujhe us future ka part imagine karti ho.

Main samajhna chahta hoon ki kya hum dono future explore karna chahte hain, ya pyaar hone ke bawajood hum life se alag cheezein chahte hain.

Main agle do saal sirf tumhe khone ki preparation karte hue nahi jeena chahta. Main chahta hoon ki hum samjhein ki kya hum saath future bana sakte hain — bina kisi pressure ke.

Agar hum saath life build karne ka realistic raasta dhoondh paate hain, toh main patience aur sincerity ke saath use explore karna chahta hoon. Agar obstacles hain, toh main chahta hoon ki hum unhe samjhein aur dekhein ki hum reasonably kya kar sakte hain. Agar humari hopes alag niklein, toh main chahta hoon ki hum itne honest hon ki us truth ko face kar sakein.

Main tumse pyaar karta hoon aur tumhe khush dekhna chahta hoon. Main khud bhi khush rehna chahta hoon, aur aisa future chahta hoon jahan meri feelings aur hopes bhi matter karein.

Main expect nahi karta ki tumhare paas abhi har answer ho. Main bas chahta hoon ki tum mujhse honestly baat karo, meri feelings suno, aur humein apne future ke baare mein saath sochne do — fear aur uncertainty ko saare decisions lene dene ke bajaye.

Main tumse aise pyaar karna chahta hoon jisme hum dono ko grow karne ki space mile, na ki hum mein se koi trapped feel kare.

Mujhe nahi pata ki do saal baad kya hoga. Hum dono future guarantee nahi kar sakte. Lekin main nahi chahta ki samajhne ka mauka milne se pehle hi fear humara future decide kar de.

Please yeh mat sochna ki tumhe sab kuch turant answer karna hai. Jab tum ready feel karo, ise padhna, sochna, aur mujhe batana ki tum genuinely kya feel karti ho. Main tumhara dil samajhna chahta hoon, jaise main chahta hoon ki tum mera samjho. ❤■

Ek aakhri baat

Main tumse pyaar karta hoon, lekin main nahi chahta ki mera pyaar tumhare liye koi responsibility ya burden ban jaaye. Tumhari happiness aur tumhari freedom mere liye important hain. Main tumhari baat sunne ke liye ready hoon — chahe tumhe time chahiye, tum unsure ho, ya tumhari wishes meri wishes se alag hon. Main hope karta hoon ki hum bina pressure, guilt ya fear ke honestly aur pyaar se baat kar sakein. Tum mere liye ek insaan ke taur par important ho, sirf isliye nahi ki main tumse shaadi karna chahta hoon. ❤■

Pyaar, honesty aur respect ke saath.
